

Catoosa County Schools: Ringgold Middle School
Digital Learning Plan
Extended Closure

Device Distribution

Each teacher will have their classroom Chromebook carts in their rooms, along with their first block class. At that time, we will manually assign each Chromebook and charging cord, and assign it to each individual student. We will record these by hand using the barcodes, then will enter them electronically for our Inventory.

After a survey of who will need hotspots, we will tag them and assign them just like the Chromebooks. Inventory Administrator and staff will assist in the distribution process. Students will be responsible for maintaining and keeping up with their Chromebook.

Delivery of Instruction & Monitoring of Student Learning

The primary method of course delivery will be through Google Classroom. This platform will house all links, videos, and appropriate instruction. Each teacher has a Google Classroom as well as connections teachers. All of our teachers will follow our normal block schedule, and will be expected to remain online during those specified times. Google Chat will be another feature that students and teachers can both utilize to communicate, clarify, and/or ask questions. Students will also have logins for Reading Plus and other appropriate logins as needed for each class. Some Connections classes will utilize an activity log for the students to record their practice/activity. For example, Band and P.E. will use these activity logs.

Grades will be updated throughout the extended closure.

- Completed work will be graded and entered into Infinite Campus in a timely manner.
- Students and parents may check current grades as usual through Parent Portal:
<https://campus.catoosa.k12.ga.us/campus/portal/catoosa.jsp>

Supportive Services

Students Receiving Reading or Math Support:

All students receiving or needing support will have appropriate logins for Tier 2 and Tier 3 supports, such as Ascend, Reading Plus, Lexia, iReady- Additional help can be requested via Google Chat (All Google Classroom and Access Codes for ALL teachers will be listed on RMS website)

Student Clever Account

(Students can access IXL, iReady, Reading Plus, etc. through this login)
Use this link and scroll to the bottom of the page:

[Clever Login](#)

Student Google Account

(Students can access their Google Drive, Google Classroom, and GMail by logging in to their Google account)
Use this link and login in the top right corner:

[Google Login](#)

Edulastic (Tests/Quizzes)

Students can login to Edulastic by visiting the link below and logging in using their Google account information.

Most tests and quizzes are assigned through this program.

[Edulastic Login](#)
